HTML Template Specifications

Requirements overview	2
1.0 Header	3
2.0 Breaking news bar	3
3.0 Image carousel	3
4.0 Latest Posts	4
5.0 Footer	4

Requirements overview

A design has been supplied in a desktop-only PSD document. Using your initiative, create the template in a mobile-first, responsive way optimised for mobiles, tablets and desktop browsers.

The HTML page should render accurately in the following browsers:

- IE 9 – 11
- Chrome (latest version)
- Firefox (latest version)

IE8 should fall back gracefully and still be usable.

Mobile support:

- Mobile Safari (latest version)
- Mobile Chrome (latest version)

The page should work on a mobile device (e.g. iPhone 5 or similar) and tablet (e.g. iPad or similar)

The page should be built using HTML5, CSS and javascript/jQuery.

Further resources can be found here:

- [Oswald](#) — for logo, headings and various other areas.
- [Open Sans](#) — General text
- [fontawesome.io/icons/](#) — Fontawesome Icons
- [unsplash.com](#) — Images
- [picjumbo.com](#) — Images

1.0 Header

No.	Requirement	Notes
1.1	Logo	No further functionality required.
1.2	Ad space	No further functionality required.
1.3	Navigation	Just single-level navigation is required. No dropdowns or sub levels.
1.4	Search	On mouse click of the search icon the text input appears as per group 14 in the search folder layer of the PSD.

2.0 Breaking news bar

No.	Requirement	Notes
2.1	Breaking news bar	Simple list of links. No further functionality required.
2.1	Date box	Simple box with date. Just static HTML – no further functionality required.

3.0 Image carousel

No.	Requirement	Notes
3.1	Main image	Image with link through.
3.2	Text area	Contains date, title paragraph of text, read more link and carousel controls. On clicking the controls the image will transition to the left/right to the next image and the text will change to the associated slide's text.

4.0 Latest Posts

No.	Requirement	Notes
4.1	Group of 4 thumbnails with tags and titles.	No further functionality required.

5.0 Footer

No.	Requirement	Notes
5.1	About us	Email form – static HTML – no functionality needed.
5.2	Popular post	Simple list – no functionality needed.
5.3	Best reviews	Simple list. Rating number shows score as a percentage of the background yellow colour.
5.4	Bottom panel	Copyright and simple list of links.
